MEDICAL.

The Old Reliable Family Medicine!

Has been introduced and sold

FOR THIRTY-ONE YEARS!

FROM

1840. TO 1871.

Perry Davis' Pain Killer.

Has been tested in every variety of climate, and by almost every nation known to America.

It is the almost constant companion and inestimable friend of the missionary and the traveler, on sea and land, and no one should travel on land or sea without it.

Pain Killer was the first, and is the only permanent pain reliever.

Since the PAIN KILLER was first introduced, and met with such unqualified success, many LINIMENTS, RELIEFS, PAIN-ACERS, and other Remedies have been offered to the public, but not one of them has ever attained the truly enviable standing of the PAIN KILLER.

Why is this so?

It is because Davis' PAIN KILLER is what it claims to be, a Believer of Pain.

ITS MERITS ARE UNDISPUTED.

If you are suffering from Internal Pain, Tension or Throat Drops in a little water will not instantly cure you. There is nothing to equal it. It is a few moments it cures Colic, Cramp, Spasms, Heart Burn, Diarrhea, Dysentery, Flux, Wind in the Bowels, Sour Stomach, Dyspepsia, Sick Headache.

In sections of country where Fever and Ague prevails, there is no remedy held in greater esteem. Persons traveling should keep it by them. A few drops, in water, will prevent sickness or bowel trouble from change of water. From foreign countries the call for PAIN KILLER is great. It is found to cure Cholera, when all other Remedies fail. When used externally, as a Liniment, nothing gives quicker relief in Burns, Cuts, Bruises, Sprains, Stings from Insects, and Scalds. It removes the fire and the wound heals like ordinary sores. Those suffering with Rheumatism, Neuralgia, if not a positive cure, they find the Pain Killer gives them relief when no other remedy will. It gives instant relief from Aching Teeth. From 1840, to the day, 1871, thirty-one years, PERRY DAVIS' PAIN KILLER has had no rival.

Every Housekeeper should keep it at hand, to apply in the first attack of any ailment.

It is a safe, reliable and sure remedy for all ailments.

Do not trifle with yourself by testing untried remedies. Be sure you call for, and get the genuine PAIN KILLER, many worthless imitations are attempted to be sold on the great reputation of this valuable medicine.

THE SENTINEL.

DEFERRED EDITORIAL MATTER.

McCLELLAN'S LETTER.

We recommend the special attention of our readers to the sentiments and utterances of General McClellan, contained in his letter to the Tammany Society of New York, which we republished on the first page of our last issue. They are not the laborious sentences of a practiced politician constructed to meet the public eye and captivate the public fancy in a propitious exigency; but they are the calm, dispassionate, deliberate and conscientious convictions of a conscientious and patriotic man, one who loves his country above his own personal aggrandizement, and who speaks the judgment of his brain from the fullness of his heart. General McClellan is a man who never indulges in rhodomontade, and is guileless of special pleading. His sentences are constructed in simple style, of plain and intelligible language. They are totally devoid of ornament save such ornamentation as is given by sincerity. His words are not only words of wise counsel, they are the inspiration of hope, they are the inspiration of courage, they are the inspiration of the brave. Many issues and questions arising from the peculiar institution of slavery had become fastened upon the Democratic policy as barnacles fasten themselves upon the bottom of a ship, retarding its advance and cumbering its speed. These have all been scraped off by the keen edge of the sword, and now lie at the bottom of the sea of the past. Democrats would be silly, indeed, were they to waste time and strength in trying to fish them up from their sandy graves as the *cochinitos* fish up sponges. General McClellan, realizing the folly of diving into the mud and slime of the past after dead and damned issues, allows his vision to embrace only the salient points of the present, and indulges in buoyant hopes for the future. With the wisdom of a sage and the prudence of a careful and cautious leader, he divides the course to be pursued and marks out the route of march to victory. Read his letter, ponder its suggestion, and then choose between Bourbonism and Democracy.

Lesson For Editors Who Publish Improbable Stories in Their Papers.

Out near the terminus of the Love

pole, in this county, is an old fashioned

country schoolhouse, presided over by

an elderly maiden lady, where the

children of the neighborhood are

taught the "rudiments." On last Friday

evening after school had been

dismissed, several of the larger boys,

whose homes were not far off, threw

themselves on the grass under a

spreading tree to pass an hour or two

in social chat. Soon their conversation

turned upon the feats of some

East Indian jugglers, accounts of

which one of the boys had read in a

newspaper. The writer had described

with great particularity the feat of cutting

off the human head and then re-

placing it on the neck "as good as

ever" advancing the theory that, if

the job were done quickly, and the

head clapped on instantly, before the

blood had cooled, it would be all right.

Indeed, that wonderful writer declared

that therein lay the whole secret of

the trick—an opinion the schoolboy

reader earnestly coincided with. Of

course this absurd theory gave rise to

a heated controversy, which reached

such a pass that the boy who affirmed

proposed to practically test the cor-

rectness of his author's theory then

and there if any boy would submit to

the experiment. Immediately a prom-

ising little fellow of thirteen, who had

been listening to the wonderful story

with eyes and mouth agape, volun-

teered to be decapitated; and when it

transpired that all the knives in the

party were too dull for the purposes

of dissection, proposed to run home

and "borrow" his father's razor.

His home being only a couple of fields

off, he soon made the trip, and "quick

as a flash" his "right little head" was

severed from his body. As quickly as

it was removed it was replaced upon

the stump of neck, but it wouldn't

stick. Every boy there tried to make

it stick, but all their efforts were in

vain. And the poor little fellow was

at last compelled to go home with his

cession of a sovereign State is no longer a practicable or possible way to remedy its grievances, but hereafter, in such cases, redress is to be sought by combination among the friends of constitutional liberty in the States. If, therefore, the Bourbons can realize there has been a war, and accept the settlement of the question of secession and the absolute freedom of the negro, both of which would be radical changes in the organic law of the land, why, in the name of reason, should they draw back from acquiescing in the negro's citizenship and right to vote—which follow his freedom as inevitably as the night follows the day. There is as much reason in accepting all as one. The freeing of the negro was a national act; and, when freed, the Federal government was bound to clothe him with such rights as would protect him in the full enjoyment of his liberty.

We are forced to accept as dead issues all the matters to which we have adverted. The entire Democratic party outside of Kentucky are so regarding them, putting them out of the political arena as practical questions, and making battle upon vital and tenable issues. That part of the grand column not standing in Kentucky

incorporated into that instrument, and are now emphatically the law of the land; opposing and denouncing the tyrannical, anti-republican and unconstitutional legislation of Congress in the interest of Radicalism, pledged to hold and defend the right of social self-government inherent in the several States; opposed to the centralization of Federal power, to the squandering of the public moneys and lands, to a high protective tariff, what more can be asked of them? There are no differences in the party. The party is advancing with swift, elastic step to the rescue of the republic. Only a few stragglers, lagging in the rear, are growling and grumbling as stragglers always do. When the sounds of the conflict of 1872 fall upon their ears they will push forward with shouts and cheers and take their places in the ranks of the army of Democracy. We have no fears of any split. Everything will come right when those dear, cross-grained old stragglers have had their little growl out.

PLEASANT PARAGRAPHS FOR RADICAL READERS.—PLAIN AND COLORED.

For the plain brothers.—In 1867, when John M. Harlan was the Conservative Democratic candidate for Attorney General, he held and expressed the following opinion of the Radical party, of which he is now the standard-bearer:

"IF THE AMERICAN PEOPLE CONTINUE THE RADICAL PARTY IN POWER, THEY WILL DO SO AT THEIR PERIL; FOR IT IS THE AVOWED PURPOSE OF THE LEADERS OF THAT PARTY TO SUBVERT OUR CONSTITUTION, AND CENTRALIZE THE GOVERNMENT."

For the colored brothers.—In 1868, Mr. William Brown, now the Radical candidate for Attorney General, but then the Radical candidate for Congress in the Lexington district, used the following language, in his speeches and letters, in opposition to negro suffrage:

"The principle of self government is based upon the intelligence of the people. It is a principle for which mankind have ever been struggling. Our race has fought for it for more than a thousand years, and we alone of all the people on earth have gained the right to throw it away upon a semi-civilized race, only a few generations ago living in a state of nature in the jungles of Africa, undowned by the God that made them with any high order of intellect, without past association, without any education, without knowledge of the first principles of government, merely because said race was enslaved and has been made free, and because they happen to be black. IS THERE ANYTHING WOULD RATHER DIE THAN DO."

THE Owen News, the organ of the invincible Democracy of "Sweet Owen," takes the New Departure in an exceedingly well written and able leader. The old pro-slavery interpretations were expunged from the Depar-

eratic creed by the decision of the sword, and the old faith, as it was given us by Jefferson, Monroe and Jackson has been revived. And the party are not slow to comprehend the fact. Once more Democracy is synonymous with liberty and freedom, and the nation will be the better for its return to first principles. The palsied hand has been stricken off, and once more the body is sound, God grant that the time may never come when the demagogues and office-hunters shall drag the grand old party through the slums and mire and mud of which it is now freed and cleansed. Let the ball of regeneration and redemption keep rolling.

RE. The Radical papers are just now publishing with a great flourish of trumpets:

LEXINGTON, KY., July 17, 1871.

I have this day resolved to let the people of this county know that I no longer support the Democratic party; that I find that it is not to the interest of the colored man to cast his ballot or use his influence for the Democratic party. Therefore, I advise all of my colored friends to quit that party.

JACKSON JOHNSON.

The Lexington Gazette, with its bloodied cruelty, reveals the fact of an examination of the poll-books disclosed that the votes of the colored son Johnson aforesaid are not wanted for the Radical party, and

MISCELLANEOUS.
Ayer's Cherry Pectoral.
For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping
Cough, Bronchitis, Asthma,
and Consumption.
Probably never before, the whole history of
medicine has anything won so widely and so deeply
upon the confidence of mankind, as this excellent
remedy for pulmonary complaints. Through a long
series of years, and among most of the races of
men it has risen higher and higher in their esti-
mation, as it has become better known. Its salu-
tary character and power to cure various affec-
tions of the lungs and throat, have made it known as a
reliable protector against them. It is adapted to
milder forms of disease and to young children. It is
at the same time the most effective remedy that can
be given for habitual consumption, and the more
serious affections of the throat and lungs. As a pro-
tective and restorative agent, it should be
kept on hand in every family, and used as all
the symptoms of disease are felt, and it should be
prevented with this antidote for them.
Although acute Consumption is thought in-
curable, still great numbers of cases where the dis-
ease seemed settled, have been completely cured,
and the patient restored to sound health by the
Cherry Pectoral. So complete is its mastery
over the diseases of the lungs and throat, that it
is the most obstinate of them yield to it. When in-
haled, it enters the system, and its action is
felt in the lungs and throat, and it is there that
it exerts its curative power. It is a safe and
reliable remedy for the Piles, and is
not recommended to cure any other disease.
It has cured many cases of the Piles, and
standing. Price One Dollar. For sale by
druggists everywhere.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever,
Chills, Malaria, Biliousness, Dumb
Ague, Periodical or Bilious Fever, &c.,
and indeed all the affections which arise
from malarious, marsh, or miasmatic
poisons.
As its name implies, it does Cure, and does not
fail. Containing neither Arsenic, Quinine, Bismuth,
Zinc, nor any other mineral or poisonous substance,
whatever, it is in no wise injurious to any patient.
Its price is trifling, and the recovery which it
brings is literally beyond account, and we believe
without a parallel in the history of Ague medicine.
It is a safe and reliable remedy for the Piles, and is
not recommended to cure any other disease.
It has cured many cases of the Piles, and
standing. Price One Dollar. For sale by
druggists everywhere.
